RECORD KEEPER

Easy to use software that organizes your Sample results, Customers, Equipment and Action Requests.

Recordkeeper is affordable, easy-to-use software that can save you time and money. Eliminate data entry errors by importing your analyzed results into the database for trend analysis and long term electronic storage.

Features

- Import and store Forage, Soil and Plant tissue test results.
- Generate and print Samples analyzed.
- Request a custom report.
- Track customers / contacts names and addresses.
- Identify and store equipment information.
- Ensure actions are completed with action request.

Pricing

Record keeping service includes the Database software and a subscription to receive your results electronically.

Software cost: \$200

Subscription cost:

	Base	Quantity Discount *
Monthly	\$ 20.00	\$ 15.00
6 months	\$100.00	\$ 75.00
Annual	\$200.00	\$150.00

* 25 or more samples per month.

With Recordkeeper you can view a list of samples analyzed by Farmer or by Work order. You can select one or many line items and click on a report button to display the details.
